Re: **Healthier food / Stealing letters**

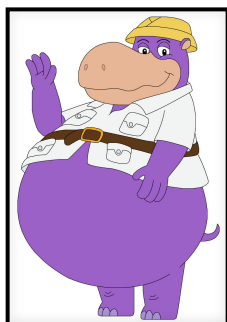

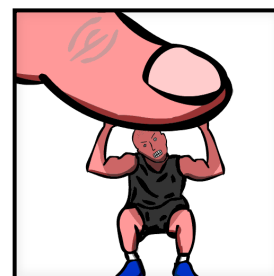

Ladies and Gentlemen:

**We need healthier food.** The food tastes good but that is not enough. We need whole grain foods. This could include pancakes, waffles, cookies, cakes, noodles, pasta, biscuits, rolls, bread. It is hard to imagine any Resident opposing healthier food. This is not the first time I have brought this to Resident Council's attention.

Brookdale Senior Living advertises "healthy living" and "wellness" and uses other words that lead one to believe that Brookdale would provide food that is as healthy as possible.

Some food, i.e, refined grains, adversely affects our health. **Maintaining good health** is at least as important as **treating poor health**. Ignoring the importance of healthy foods makes it appear that Brookdale Senior Living is more concerned with treating poor health (perhaps in an assisted living facility). **Treating poor health is certainly more lucrative from the perspective of Brookdale Senior Living.**

Our Resident Council behaves as though healthier food and maintaining good health is not important. Council behaves as though it were under somebody's thumb.
